## TECHNOLOGIES

---

**Languages** | Python, JavaScript (AJAX, JSON), SQL, HTML, CSS

**Frameworks & Libraries** | React, Flask, SQLAlchemy, jQuery, Jinja

**Database & Industry Tools** | PostgreSQL, Git, GitHub, Command Line

**Tools & Software** | Jira, Splunk, Salesforce, Coupa, Confluence, Concur, DocuSign, Workday

## PROJECTS

---

**Moody - Movies by Destination** [[github.com/dahliakadri/movies\\_by\\_destination](https://github.com/dahliakadri/movies_by_destination)]

Full stack Python and React JavaScript web application. Utilizes IMDB's datasets and Google Maps API. Users can search, save, and share the top rated movies by country. Deployed on AWS [[moodymovies.sadrail.com](https://moodymovies.sadrail.com)]

**Travel Quiz** [[github.com/dahliakadri/Travel\\_Quiz](https://github.com/dahliakadri/Travel_Quiz)]

Python quiz that generates tailored destinations based on an algorithm with data about a user's workday.

## PROFESSIONAL EXPERIENCE

---

**Box, Inc.**

**March 2017 - Present**

*Technical Program Manager*

Redwood City, CA

- Enabled Box users to monitor externally exposed content by developing a Box internal tool with a Python endpoint for the Box Security API that interfaces with Splunk and a UI in JavaScript.
- Built initial web application firewall implementation for Box by leading Agile program management of the infrastructure security and edge engineering teams.

*Security Engineering EA*

- Direct support to the Chief Information Security Officer and Box Security Engineering team.
- Produced Box Annual Partner Summit with 300 partners by organizing content and event logistics.

**Microsoft, Inc.**

**Sep 2015 – Oct 2016**

*Corporate Responsibility Associate*

Cairo, Egypt

- Developed youth computer science programs by partnering with universities, government and UNDP.
- Generated opportunities for youth and employee engagement by organizing event logistics, external communications, and CSR impact reports.

## EDUCATION

---

**Hackbright Academy**, Full Stack Software Engineering Program for Women

Accelerated 24 week program focused on Front-End, Back-End, and Databases
